

Maintain consistent
flow rates during
ovum aspiration.

Cook® Vacuum Pump

Designed specifically for ovum aspiration,
the Cook Vacuum Pump is a precision-built,
regulated vacuum pump.

Cook® Vacuum Pump

Used to provide a low flow, regulated vacuum up to -500 mm Hg for general suction.

- The ultra-quiet, vibration-free unit delivers consistent vacuum pressure.
- An adjustable tone indicates when suction is applied.
- The easy-to-read LED display indicates the pressure setting in either mm Hg or kPa.
- The foot pedal allows hands-free operation and delivers rapid suction at the needle tip when activated.
- A disposable vacuum line with a hydrophobic filter is included.

Disposable Vacuum Line with Hydrophobic Filter

Used to connect ovum aspiration needles to the Cook® Vacuum Pump to prevent contamination of the pump.

- The universal Luer-lock fitting, which is included on all Cook ovum aspiration needles, simplifies connection to the pump.
- The vacuum line is disposable to reduce the potential for cross-contamination between patients.
