

Fast Warm - NX + Vit Kit - Freeze NX

Not Just Fast... **Fast on Your Terms**

The Challenge

Peak lab hours = overlapping vitrification, warming, and retrievals.
Every minute outside the incubator matters.

FDA cleared

Fast Warm-NX

1-minute, 1-step warming
(>90% time reduction)

Same trusted TS-NX formulation – just faster

Flexible packaging – micro vials or 20 mL packs

New protocols available in select regions

Vit Kit-Freeze NX

Same proven formulation (since 2019)

Flexible timing

1-10 minute equilibrium options

Seamless workflow integration

Lab Benefits

Save critical minutes
during peak hours

Continuous CSCM system
from culture to vitrification

No new validation required

Minimal workflow disruption

Faster Protocols. Trusted Foundation.
Confidence at Every Step.
